2021 Car Show Basket Report

Our goal is 30 baskets and we have 7 to date, including:

- Martinis for Two
- Dog's Life
- BBQ
- Coffee with a Kick
- Asian Tea
- Lemons in Aid
- Americana Picnic

We are also trying to collect all things Corvette for a separate Corvette raffle. We have C7 and Stingray signage, Corvette book, and puzzle...so we have a long way to go. If you have an accessory that you love, please advise so it can be added to the basket...or better yet donate the accessory.

I want to send a special Thank You to Jean and Walter Perkins who gave us the first completed basket (Martinis for Two). Please contact me if you have any questions, donations, ideas or complaints.

Bee Hive the 60's Musical

By
Lisa Lerandeau

On July 11, 2021, we attended the New Village Arts' production of "Bee Hive the 60's Musical." Thank you Scott and Donna White! It was staged at the Flower Fields in Carlsbad. I believe there were 11 of us who went, including Lesly and her cousin, Susie. We could not have asked for a more perfect day to attend, there were gentle breezes blowing and Monarch butterflies flitting about. The outdoor seating was under a canopy as was the stage. The story behind this play starts with the 7 actresses introducing themselves, and taking turns discussing some of the history of that decade, and about the women at the forefront making positive changes for all women then and now. Then the music started and it was such fun, at most times it was lighthearted with lots of audience members singing along. And at times it was very moving, in particular with regards to the song, "Abraham, Martin, and John" Of all times for me to not have brought a Kleenex. I felt the joy and sorrow of those times, and the young ladies on the stage did an amazing job. They sang so many great songs, a few of these were, "It's my Party," "My Boyfriend is Back," "Son of a Preacher Man," "River Deep Mountain High," and a fantastic rendition of "Proud Mary" I've goose bumps just thinking about it. Near the end of the show, a lot of audience members were up and dancing. As I said, "It was a perfect day..."

After the show Scott suggested we go for a meal at Miguel's. We ate delicious Mexican food, had some tasty beverages, and enjoyed each other's company. I ordered the fish tacos, and I've never had better! We really do have a great club with great members/friends, and I'm happy to be a part of it.

Main Street America July 17th

By JD Duncan

On Saturday July 17th the Corvette Owners Club of San Diego had their 24th annual Main Street America Car Show at Seaport Village. 356 registered cars covered the grounds.

The top 4 clubs in attendance NOT counting COCSD were....

San Diego Miata Club with 34 cars, North Coast Vettes with 18, East County Cruisers 13 and North County Vettes with 12 cars.

Craig, the show organizer, said he will gather his group and show well at our show in Nov. Their club took honors with us in 2019 with 30 Cars registered.

He told me no date is set just yet for their show in 2022, that's up to the Port of San Diego.

Once we got the word out to our club to register they did and all of us had a great day at a great venue with great people.

OnStar Ends Police Pursuit of a Stolen C7 Corvette

By [Mitch Talley](#) -CorvetteBlogger. Jul 30, 2021

Chalk up another victory for OnStar over the bad guys.

California Highway Patrol says the General Motors high-tech security system played a key role in the apprehension of a [stolen C7 Corvette coupe](#) in the San Fernando Valley area around 1:15 p.m. Thursday.

While high-powered sports cars like this purple-wrapped Stingray can sometimes lead police on dangerous high-speed chases, this one came to an uneventful conclusion rather rapidly.

“OnStar contacted CHP Dispatch to notify us” of the stolen Corvette on the 405 near Rossville Boulevard, Sgt. Steven Geraty told FOX 11 News reporter Ed Laskos. “After a short pursuit, about three minutes, the vehicle was disabled by OnStar.”

Aerial video shows five officers immediately surrounding the vehicle, weapons raised, while the suspect raises his hands into the air and is taken into custody.

Inside the Corvette, authorities found narcotics and boxes containing several high-powered assault weapons. “There was AK-47s involved, and there was handguns, 1911s (pistols), quite a mixture of guns – magazines with an extended drum magazine,” Geraty said. “They’re very dangerous weapons.”

Chris Yzaguirre, who retired from the Los Angeles Police Department after more than 30 years and dozens of chases, tells FOX 11: “These things happen in a second. They either go really good or they can go bad so having OnStar or a feature like that technology is always a plus.”

Yzaguirre knows it’s important for the target of the pursuit to be stopped in a safe area where no else is put at risk, pointing out a key advantage of the GM system is that a pursuing officer “can communicate with OnStar and the other officers, say let’s

wait another half a block [so] maybe they're passing in an area where there's a low population and it's an open field or something like that."

OnStar tells FOX 11 that it works with law enforcement to stop thieves, explaining: "An OnStar Advisor can send a signal to disable a stolen vehicle's engine and gradually slow the vehicle to an idle speed to assist police in attempting to recover a member's vehicle, once authorities have confirmed conditions are appropriate and safe."

Yzaguirre also said that the system ensures the car can't be restarted by the suspect, "and isn't it nice that we can make sure a bad guy doesn't get a second chance at trying to hurt somebody out there?"

Another important feature of OnStar is that if officers think they may have spotted a potential stolen vehicle, they can ask OnStar to send a signal to flash the taillights a couple of times to confirm it's the right one while the suspect is totally unaware.
